

Where untamed

nature awaits you...

BELIZE

Tour Description

This combination tour provides the thrill of a high-speed airboat ride with historical highlights of the Central American jewel of Belize City.

Your adventure begins when you board an air-conditioned bus for a guided tour of historical Belize. Learn about the city's establishment by shipwrecked British sailors and journey past St. John's Cathedral (the oldest in Central America) and the current Prime Minister's Residence.

At the Airboat Outpost, you will receive a short orientation before boarding your awesome 450 horse-power airboat. Feel the breeze tugging at your skin while your airboat zips across the water. Your journey takes you to the beautiful Almond Hill Lagoon, where your boat quietly drifts so that you may catch a glimpse of the manatees as they feed.

Speed across the lagoon to Indian Creek where you will bask in the unspoiled beauty of an area protected by lack of access. See beautiful water lilies growing wild and wading birds, turtles and crocodiles in their natural habitat. Glide over hundreds of acres of open marshland bordered on all sides by mangroves – a natural playground for Belizean wildlife.

Return to the Airboat Outpost and sip a refreshing complimentary beverage.
