Barrier Reef

SNORKEL

Come experience some of the best snorkeling in the Cayman Islands at the Barrier Reef in the beautiful North Sound, a place rich in local history offering pristine snorkeling conditions. A shallow site offering superb snorkeling in beds of sea whips, sea fans, corals and schools of tropical fish.

The tour will start by you being greeted by a representative on the pier followed by a short bus ride to our boat at our private dock which will take you out to the Barrier Reef. Here you will have ample time to explore the reefs and abundant marine life before being transported back to the dock.

If you want to experience snorkeling at its best this is the tour for you.
